RCRA Land Disposal Restriction Notification Form EZ

Generator: Douglas Aircraft Company
Profile #: 1780258 805244

U.S. EPA I.D. #

Manifest #:

(MD)008378044

208 79884

The wastes identified on this form are subject to the land disposal restrictions of 40 CFR Part 268. The wastes do not meet the treatment standards specified in Part 268, Subpart D or do not meet the applicable prohibition levels specified in Part 268. Pursuant to 40 CFR 268.7(a), the required information applicable to each waste is identified below (check all boxes that apply):

Treatability Group: Wastewater Nonwastewater

(Wastewaters contain less than 1% filterable solids and less than 1% Total Organic Carbon)

- D001 Ignitable (except for High TOC) managed in non-CWA/non-CWA-equivalent/non Class I SDWA systems (Complete form UC, unless D001 is the only "D" code and the waste is to be combusted or recovered)
- D001 Ignitable (except for High TOC) managed in CWA/CWA-equivalent/Class I SDWA systems
- D001 High TOC Ignitable (greater than 10% total organic carbon)
- D002 Corrosive managed in non-CWA/non-CWA-equivalent/non Class I SDWA systems (Complete form UC)
- D002 Corrosive managed in CWA/CWA-equivalent/Class I SDWA systems
- D003 Reactive Sulfides based on 261.23(a)(5)
- D003 Reactive Cyanides based on 261.23(a)(5)
- D003 Water Reactions based on 261.23(a)(2),(3) and (4) managed in non-CWA/non-CWA-equivalent/non Class I SDWA systems (Complete form UC)
- D003 Water Reactions based on 261.23(a)(2),(3) and (4) managed in CWA/CWA-equivalent/Class I SDWA systems
- D003 Other Reactives based on 261.23(a)(1) (Complete form UC)

If D001-3 boxes are checked, complete and attach Form UC to address underlying hazardous constituents (unless they wastes are to be managed in CWA/CWA-equivalent/Class I SDWA systems)

Note: If any bolded entries are checked, Form UC must be completed to address underlying hazardous constituents, unless the material is treated in a Clean Water Act (CWA) treatment process or unless otherwise noted above.

In addition, the following wastes are included in this shipment:

- F001-F003 spent solvents. (If this box is checked, complete the F001-F003 section on the back of this form. Check the hazardous waste number(s) that applies, and identify the constituents likely to be present in the waste.)

If this shipment carries additional waste codes that are not addressed above, identify them here:

EPA Waste Code

Subcategory (if applicable)

EPA Waste Code

Subcategory (if applicable)

F001-F005 Spent Solvents

FO01-FO03 Spent Solvents
Check the box(es) that applies: identify the individual constituents likely to be present.

Hazardous waste description

- 1.001 Spent halogenated solvents used in degreasing

F002 Specie biologenatice invensit

- F002 Specie halogenatae iuvenis

F003 Special non-halogenated solvents

- F003 Special non-halogenated solvents

1004 Spent non-halogenated solvents

- 1004 Spent non-halogenated solvents

1905 Spent non-halogenated solvents

- #### 1905 Spent non-halogenated solvents

Regulated hazardous constituents

Carbon tetrachloride
Tetrachloroethylene
Trichloroethylene
Trichloroacetylchloromethane

Methylac chloride
1,1,1-Trichloroethane
1,1,2-Trichloro-1,2,2-trifluoroethane

Chlorobenzene
 Methylene chloride
 1,1,1-Trichloroethane
 Trichloromethylene
 Trichloromonofluoromethane

- Dichlorobenzene
- Trichloroethylene
- 1,1,2-Trichloroethane
- 1,1,2-Trichloro-1,2,2-trifluoroethylene

Acetone
Cyclohexanone
Ethyl benzene
Methanol
Xylene (total)

π -Butyl alcohol
Ethyl acetate
Ethyl ether
Methyl isobutyl ketone

m-Cresol
p-Cresol
Nitrobenzene

***o*-Cresol
*Cresol-mixed isomers (teresylic acid)***

Benzene
2-Ethoxyethanol
Methyl ethyl Ketone
Pyridine

Carbon disulfide
Isobutyl alcohol
2-Nitropropane
Toluene

*The treatment standards for carbon disulfide, cyclohexanone, and methanol nonwastewaters are based on the FOM-10S and apply to spent solvent nonwastewaters containing only one, two, or all three of these constituents. The treatment standards for these three constituents do not apply when any of the other FOM-10S constituents are present in the waste.

Hazardous Debris

- This shipment contains hazardous debris that will be treated to comply with the alternative treatment standard of 268 D (e) (6)-macroencapsulation or abrasive blasting.

(The definitions of "debris" and "hazardous debris" are in 40 CFR 268.2. Per 268.45, hazardous debris must be treated for each "contaminant subject to treatment." To determine these, look up the waste code in 268.10 and list the regulated hazardous constituents for each code.)

The contaminated subject to treatment for this debts are identified below.

PHILIP SERVICES CORP
RCRA Land Disposal Restriction Notification Form UC

Generator: Douglas Aircraft Co.
Profile #: 178258

U.S. EPA ID: CAD08651D005
Manifest #: 20879884

In accordance with 40 CFR 268.7(a), the underlying hazardous constituents must be addressed in this waste. Per 268.2(i), "underlying hazardous constituent" means any constituents listed in 268.48, Table UTS—Universal Treatment Standard which can reasonably be expected to be present at the point of generation of the hazardous waste, at a concentration above the constituents-specific UTS treatment standard. Refer to Form EZ (attached) for the waste code(s), treatability group, and subcategory applicable to this waste.

In order to address underlying hazardous constituents in characteristic wastes, please check the appropriate box:

- I have reviewed the UTS list of 268.48, and per 268.7(a), I have determined that there are no underlying hazardous constituents reasonably expected to be present in this waste.
- I have reviewed the UTS list of 268.48, and per 268.7(a), I have determined that underlying hazardous constituents are present in this waste. The underlying hazardous constituents are identified as follows:

1,1,1-Trichloroethane

Trichloroethylene

IDLene

Blene

The determination of underlying hazardous constituents was based on:

- Generator's knowledge of the waste

- Analysis

I certify that I personally have examined and am familiar with the waste through analysis and testing, or through knowledge of the waste to support this certification. I certify that as an authorized representative of the generator named above, all the information submitted in this notification is true and correct to the best of my knowledge.
